

C. INDEX TO ENTRIES THAT MAY AFFECT SMALL ENTITIES WHEN A REGULATORY FLEXIBILITY ANALYSIS IS NOT REQUIRED

The Regulatory Flexibility Act (5 U.S.C. 601) requires that agencies publish regulatory agendas identifying those rules that may have a significant economic impact on a substantial number of small entities. Agencies meet that requirement by including the information in their submissions for the Unified Agenda. Some agencies have chosen to identify additional regulatory actions that may have some impact on small entities even though a Regulatory Flexibility Analysis may not be required.

The following index lists the regulatory actions in this publication for which agencies have chosen to indicate that some impact on small entities is likely even though a Regulatory Flexibility Analysis may not be required. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition. For further information, see the Regulatory Information Service Center's Introduction in part II of this issue.
